

Svajonė Kennels

Here at Svajonė Kennels we are dedicated to the preservation of the beauceron breed. Each pairing is made with careful deliberation, each litter is lovingly raised in our home with an early neurological stimulation and socialization protocol known as puppy culture, and each puppy is placed in the home best suited for the individual. We hold ourself to high standards to produce healthy, versatile Beaucerons with excellent temperaments and exemplary breed type. Find us on our website, Facebook, or Instagram.
