

# Maggie

This is our newest addition to the foster program. Maggie is a senior girl who was seized by animal control from what we think was a hoarding situation. Maggie was in sorry shape, skinny, filthy and terrified. She has been in our program for almost two weeks and is THRIVING! She likes other dogs, is housebroken, good in a crate and even has basic manners. This is when we wish our dogs could talk. Someone along the way really loved Maggie and worked with and trained her. We will always wonder how she ended up emaciated at a kill shelter. Maggie is being foster in Illinois.
