

Herding Clinic

This is a ranch style clinic with Lisa Edwards, who has extensive experience with Beaucerons as well as many other herding breeds. Instruction will be tailored to the individual dog-handler team. This is the clinic that was postponed from last year due to COVID. There are 10 working spots (10 dogs). There is no charge for observers but the number may be limited due to COVID restrictions.

Book Your Spot

You'll receive an email with payment details. After payment is completed, you'll be confirmed (manually, so there may be a bit of a delay), and then you'll receive instructions for how to submit your registration information so the site can properly plan for the number of people attending and staying onsite.
