

# Meet Shallot

Shallot

**Name:** Shallot

**Age:** 1 year

**Gender:** female

**Location:** Northern CA

**Cats:** Unknown

**Dogs:** Lived with dogs previously and gets along GREAT with foster home's current Beaucerons

**Kids:** Yes, according to previous owner.

**Livestock:** unknown

**Housebroken:** No accidents at foster home so far, but foster family is diligent about reading her signals.

**Crate trained:** No

**Training:** Very little

**MEDICAL NOTE:** Shallot's previous owner thought she was deaf or partially deaf. She does seem to respond to noise stimulus, but we are going to have her hearing tested. Dogs who are untrained often seem to have selective hearing ☐ We will keep everyone posted on her test results.

**Reason for surrender:** Previous owner realized that Beaucerons are just too much dog for them. Too high energy. Shallot was surrendered to another rescue program who reached out to us here at Beauce rescue to see if we could help. We were more than happy to take Shallot under our wing!

**What does Shallot's foster have to say?** Shallot is going to make a great pet for someone! I was with her at her vet visit when she was vaccinated and she was a good girl. I have bathed her and she didn't give me any problems. She is spunky and fun but needs training.

**Who will be Shallot's ideal new family?** Shallot will be a great family dog with someone who is comfortable with high energy, intelligent dogs. She is eager to please and is very food motivated, but has little training. While in foster care her mom will work with her, but she will need a family to continue her training!

If you are interested in Shallot please contact us! Adoption applications are available on [Beauce.org](http://Beauce.org)

**PLEASE NOTE:** Shallot is NOT ready to go to her new home yet! She still needs to be spayed and we are going to have her hearing tested.
